Hi, I'm Fin— Intercom's new AI chatbot

Hi! I'm Fin, Intercom's AI chatbot for customer support teams (like yours).

I'm a quick-thinking multitasker (answering multiple questions from multiple different customers—at the same time). I never get tired of answering, even when the same questions come up over and over and over again. It's like I was made for this!

I think we'd make a pretty good team. With me at your side, you'll have more time to focus on complex problem-solving and the meaningful 1:1 customer conversations that humans like you are so good at.

Let's see what we can do together—I'm ready when you are!

How to kickstart your automated support strategy

Hey there,

We get it—automation can seem complicated. That's why we're demystifying automation setup in our upcoming webinar, How to Kickstart Your Automated Support Strategy.

Join experts from Intercom's Customer Support team on June 27th to get your team on the fast track to efficiency and better user experiences. We'll cover:

- Automation fundamentals, like optimizing your support library for chatbots and setting up automation flows
- Real-world examples from businesses that have enhanced their support with automation
- Actionable strategies that you can apply immediately—from experienced panelists who know their stuff
- A live Q&A session where you can ask all your burning questions and get real-time answers from our experts

You won't want to miss this!
